Analytical Excellence, Quality Service & Regulatory Compliance

OMIC USA Inc is a 15,000 sq. ft., ISO 17025 accredited analytical laboratory located in Portland, Oregon. Established in 1992 as part of the OMIC Group of companies, we have a strong history of supporting global agrochemical and agricultural commodity industries.

Our expanded services encompass GLP-compliant work as an analytical contract research facility. OMIC's analytical team has extensive expertise with everything from specialized method development to multi-residue screens, with an Extended Profile of 422 compounds. The laboratory's analytical capabilities are supported by an experienced Quality Assurance Unit, comprehensive web-based Laboratory Information Management System, and state-of-the-art instrumentation including:

- 5 - Waters LC/MS/MS
- 2 - Agilent GC/MS/MS

Please ask for one of our full-list Pesticide & Herbicide Residue brochures and visit us at www.omicusa.com.

To inquire how we can put our expertise to work for you, please contact our sales team at 503-223-1497 or sales.us@omicusa.com, or e-mail general manager John Lupean at j.lupean@omicusa.com.
